RIDDLE OF THE FLYING SAUCERS MAY
SOON BE SOLVED !

Oct. 15, 1966

Wanaque Reservoir, N.J.

As many as a thousand civilians were reported to have visited this reservoir over the weekend. The radios and Television stations as usual for want of news played the usual reports such as the colors, size and speeds of the U F O.. The reports have reached our office and we are indeed grateful to our readers.....

EXPERIMENTAL TESTS BEING MADE

There have been models made of the U F O and it is known that some could get off the ground. Now in the field of ELECTRO-MAGNETIC force it HAS HAPPENED ! ! but only to a sub--- could be the same experiment being tried in the air.

9/4/66 SANTA BARBARA, CALIFORNIA

Hold your breath-----An electro-magnetic sub without ENGINE or PROPELLER built at a cost of \$1.500 by students at the University of Calif was successfully moved on its own power through the water.

Known as the EMS-1, it is 10 feet long and 18 inches in diameter. By creating electric and magnetic fields it propells itself.

The sub has about five 6 volt batteries that are connected by 5 foot long coils that power the ship..

FLYING SAUCER NEWS, would like to thank YOU each and every reader for sending in reports. "Only you and through you has this magazine been made possible. Each letter received we welcome and again stress the need for your reports from the radio, T V, newspapers etc and BEST OF ALL your personal reports of what you saw or had seen. Thank you, The Editor.

FROM OUT OF THIS WORLD!

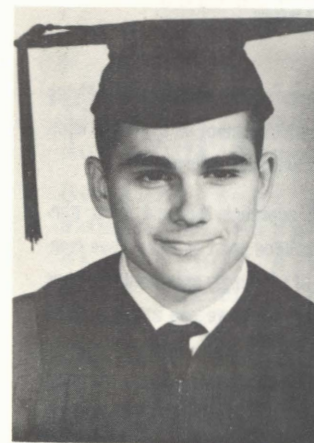

To The Editor

Dear Sir:

I am 11 years old. I was with my Day Camp Counselor and friend Christ. We were at Sunken Meadow Beach, N.Y. It was August 1, 1966 11:30 A.M.. As I looked up I saw an object that was round, all white with 2 wheels but without windows. I am sure it was not a dirigible.

INTRODUCING a new concept of investigation, and analysis, dedicated to the proposition, that man, with all his pride and arrogance, has not yet begun to fully understand the complex nature of himself and the planet he inhabits.

PROBE

THE CONTROVERSIAL PHENOMENA MAGAZINE

Consider for instance, as an example, the Flying Saucer phenomena, which cannot be explained within the framework of orthodox science.

We will attempt to approach this and other phenomena from an expanded point of view, when comparing the findings of seemingly unrelated branches of different sciences. Thus, we can attain a much higher degree of flexibility when analyzing a problem, which clearly transcends the structural limitations of any assumed purely physical manifestation. It is believed, that the Universe is ONE as a creation, therefore all phenomena in it must have some degree of relationship with each other.

The above statement we at FLYING SAUCER NEWS does NOT accept as true.

Because some people have suggested that they would be happy to leave mother Earth for Mars or another planet and there assume they would find ideal conditions is doubtful. This thought alone has indeed come to our attention. And so dear readers we have solved their problem. PROSPERITY CLINIC, this is the new name of our book store. Here any reader of this magazine is invited to talk-it-over with the Editor or with our Self-improvement meeting we have every Sunday 7: P.M. Books are also available. There is NO Admission fee and No collection taken. For more complete details as to how you can 'Have your Pie and Eat It Too' here and NOW! You are invited to write the Editor of this magazine.

Yours for Peace and Prosperity,

Dear Sir:

It has been my pleasure to be situated in the very midst of the recent Michigan sightings. Though I have not seen a UFO since 1964, I have kept busy investigating these new reports.

As many of the readers will know, many of the Michigan sightings have been explained as swamp or marsh gas. My investigations have shown that only One recent report can apply to this.

This report is the case of the 87 coeds at a Hillside, Michigan College Dormitory.

While I believe that many of the new sightings are result of hysteria, a good 30% of them are VERY GOOD, FACTUAL ACCOUNTS, and deserve much more than a mere brush-away by the Air Force.

The Editor Have you ever poured cream on a cup of Hot Coffee on a winter morning and watched the commotion on top of the coffee made by the cream floating on top of it, the movements are much the same as those made by the Northern lights.

The Light of the Northern lights is a reflection of stars on the Polar Ice, and the movements of some made by the warm air current, Japanese, passing cold air over the Northern Ice regions. I don't know if the scientists have solved the mysteries of the Northern Lights but this is the way it seems to me.

Boston, Mass On May 29, 1966 9.P.M.. Along the Charles River, which runs through the city of Boston, my friend and I were resting on one of the benches along the river and happened to look up. We thought we saw a satellite--- color was whitish and it appeared to be larger than a star. It was flying in a huge circle. Because of the extreme height we could not see any distinct outline such as windows etc. No noise, no smoke. We watched it for an hour. We had no binoculars. Larry Birnbach, 22 Buswell St., Boston, Mass.

Dear Editor:

On May 7, 1966 time Must have been about 2:30 P.M. My parents and I were going to Montauk, L.I., New York. I was watching airplanes flying. I saw a white flying object without wings or rudder. It was diving straight down to Earth then it turned a right angle. Object was thin oval. Place---Over Sunrise Highway at Brookhaven Laboratory, N.Y. It flew at a rather fast pace, then it disappeared. I could't tell if there was any noise because I am deaf. It was too far out to tell how large it was. I did tell my parents. Alec Naiman

THE TRUTH ABOUT

Flying Saucers:

By Hayden Hewes \$2.00

The Editor

Dear Sir: We would like you to know that we have just sighted a UFO at 10:54 Aug. 12, 1966 in the evening. It was sighted in Ellison Bay. It traveled from north to south, and it took approximately one minute for it to cross the sky. It was traveling at a very high rate of speed and it left a soft whining sound as it passed. There was a yellow tint to the object and there were two light flashes from it. Four people witnessed it when it crossed. Carol Gename, 5525 41 Ave, Kenosha, Wis. 53140

The Editor

Dear Sir:

I telephoned you about the UFO which were seen in the area of Goshen, Orange Co., N.Y. 9:15 P.M. to 10:05 P.M. July 1966. This sighting was observed with my husband, sister-in-law, her husband, and my son. The UFO came at fantastic speeds, with ultra white lights with a pinkish purple light around the bottom. They hovered over the tree tops. We observed three which seemed to meet as if pre-arranged. There was not a sound from these UFO. We watched them and they took off at high speed and just disappeared. They appeared to oscillate in movement. They came out of the northwest and went diagonally to the southeast at excessive speed. We could not observe windows or port-holes as they were not close enough, but we know they were not planes or other conventional aircraft.

'UFO INVADE STATE OF MARYLAND'

Many telephone calls were made to police of Maryland and Virginia.

Some of the callers described the objects as of various colors and that they were moving on Baltimore, Md. Also that the UFO had been seen in Alexandria, Va. The Air Force reported that the objects did not register on their radar screens.

Police who had reported seeing them, that is, 5 or 6 insisted the UFO were not swamp gas etc.

El Imparcial, a Spanish paper published in San Juan, Puerto Rico gave a complete report on this sighting.

RED UFO GOE POOF---Hawthorne, N.J. 8/8/66

For more than half an hour thousands reported seeing a red light hover over Bergen Co. Ptl. William Wassel admitted hundreds of calls were received to report the red glow. The officer said "It was at least half dozen times bigger than a star."

SAUCERS NOT FROM MARS---New York City 8/8/66

Birds Eye Division of General Foods Corp handed out to-day some 8,000 gyro discs, saucer-like discs- to parks and playgrounds throughout the city. The discs given were to be used for its SAUCER contest.

New York City 6/17/66

While walking towards the 23rd St- 8th Avenue subway I chanced to look towards the west across the Hudson River. I was in no particular hurry and so as I glanced up to my surprise I spotted a U F O. It was a round disc, brilliant red. This disc flew north to south and then I noticed another of a pinkish color emerge with the red underneath it. The red one flew south and then turned east where I saw five smaller O F O that became visible at this point. I noticed then that the original pattern or what would appear to be a stream of smoke, a luminous pink color, changed to an electro-encephogram pattern used to take brain wave patterns.

FIRST SPACE WAR SHOT IS FIRED ! !

The American Battleship New York during the World War II fired the shots on thier way to Iwa Jima campaign. Assuming the UFO to be a Japanese balloon it was fired upon. The SIZE of a two-story house was given in the report. The object was described as round and silver-colored. Rear Adm. Kemp C. Christian, gave the orders.
